PMI Recognized as an Outstanding ESG Practice Case in the Nonferrous Metals Industry for 2025

PMI is honored to be selected as a benchmark case in the Green Development category of the “2025 Outstanding ESG Practices in China’s Nonferrous Metals Industry.” The recognition, awarded by the China Nonferrous Metals Environmental, Social and Governance Research Center, highlights PMI’s leadership in sustainable aluminium solutions and green transformation.

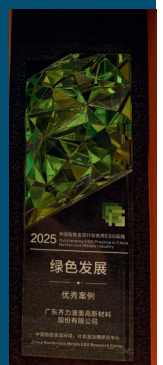

As a pioneer in recycled aluminium and circular economy practices, PMI has established a closed-loop recycling system across the entire aluminium lifecycle. We have successfully developed and commercialized alloy formulations containing up to 80% recycled aluminium, balancing low carbon emissions with uncompromised quality.

Our robust quality management and traceability systems enable continuous optimization in production processes, ensuring both product excellence and carbon reduction. By integrating sustainability into our core business, PMI strengthens competitiveness, supports industrial chain upgrades, and provides customers with low-carbon materials meeting global green trade standards.

At PMI, we believe ESG is not an option but a core strategy. Let's work together to drive our industry towards a more responsible and competitive future.

CYCAL™ 可追溯性内部审计:强化我们的流程

CYCAL™ TRACEABILITY AUDIT: ENSURING ACCURACY ACROSS THE VALUE CHAIN

我们针对CYCAL™ 进行的内部审计再次强调了其作为低碳产品的重要性，并以可验证的数据作为有力支撑。随着可追溯性逐渐成为与品质和交期同等关键要求，这项工作能够帮助我们更好地做好准备，保持透明度，并与不断提升的客户期望保持一致。

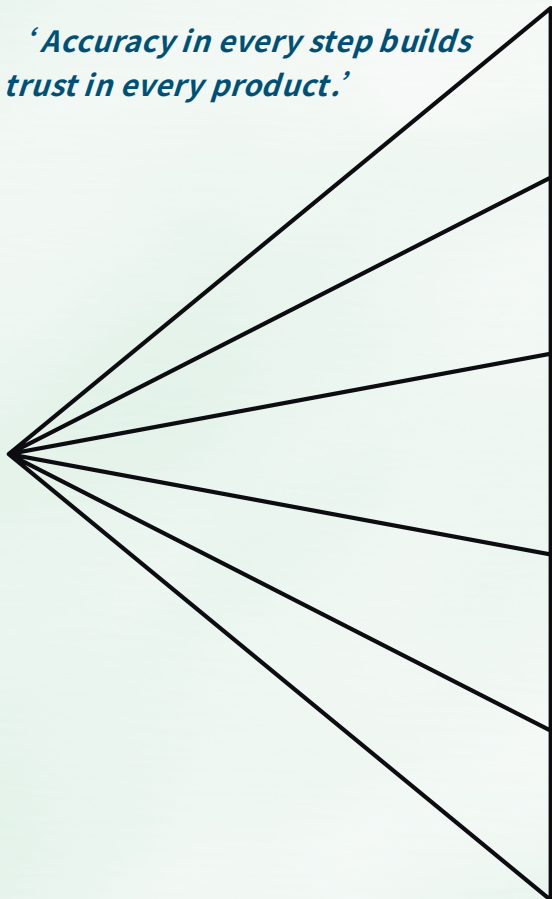

Our internal audit for CYCAL™ reinforces the importance of CYCAL as a low-carbon product backed by verified evidence. As traceability becomes a key requirement alongside quality and delivery, these efforts help ensure we are prepared, transparent, and aligned with growing customer expectation.

本次审核涵盖了市场，销售与客服，熔铸车间，挤压车间，表面处理，包装与仓库及品质等关键职能，旨在确保整个价值链的可追溯性，数据准确性与透明度。

The audit has covered key functions including marketing, sales and customer service, cast house, extrusion, finishing, packing, warehouse, and quality. The purpose was to ensure full traceability, data accuracy, and transparency across the entire value chain.

质量. 环境. 健康. 安全 (QEHS) 活动：营造一个安全、健康、 和重视质量的职场环境

Quality. Environment. Health. Safety (QEHS) Campaign: Cultivating a Safe, Healthy, and Quality-Driven Workplace

撰写/Authors: Patricia Chua

QEHS 活动结合了一系列培训、竞赛和员工参与活动，旨在强化我们的安全文化、质量卓越、环境责任，以及整体团队凝聚力。这项培养工作并非仅仅是质量部门和环境健康安全部门的责任，而是所有层级、所有部门共同的承诺。通过齐心协力，我们能够营造一个将安全与质量融入集体行为与日常实践的工作环境。

The QEHS Campaign this cycle brought together a series of trainings, competitions, and employee activities designed to strengthen our safety culture, quality excellence, environmental responsibility, and overall team engagement. This cultivation is not the responsibility of the Quality Department and EHS Department alone, it is a shared commitment across all levels and all departments. By working together as one team, we cultivate a workplace where safety and quality become part of our collective behaviour and everyday practice.
